

UNIVERSITY AT PANAMA PLANNED

Secretary Bryan Wishes to Start One; Needs Some Big Givers.

Washington, D. C., May 24.—Secretary of state Bryan has a big educational plan on his mind. He wants to see established at Panama an institution that in time may grow into a great university. If he had choice of name he would select a South American one. He is known to be telling South American diplomats and educators that the United States has received more of wealth and good fortune than have some other countries, and that it ought to share with others who may not have received so much. He is known to be looking for some American man or woman of wealth who will give the first \$500,000 or \$1,000,000 and his or her name.

The purpose of the Panama university would be, according to secretary Bryan's idea, the bringing of students together from all three Americas, Mexico and Cuba perhaps included, there to become acquainted with each other and with the characteristics of their respective countries, so that on their return home they could trade together, practice law together, study science together. He is known to be looking for some American man or woman of wealth who will give the first \$500,000 or \$1,000,000 and his or her name.

Mr. Bryan's educational plans do not, however, stop there. He is looking for men and women of not so large wealth who will give \$100,000 each to endow the universities of South America, as many of them as possible, chairs of American history and of scientific research with special reference to America. By American history he says he does not mean merely United States history, but the history of the western hemisphere. He has lately asked for the preparation of a circular letter, to be signed by him, to send to the South American ministers resident in Washington, and to educators throughout the Americas.

CONSTIPATION A PENALTY OF AGE

Nothing is so essential to health in advancing age as keeping the bowels open. It makes one feel younger and fresher and forestalls colds, flues, fevers and other dependent ills. Cathartics and purgatives are violent and drastic in action and should be avoided. A mild, effective laxative-tonic, recommended by physicians and thousands who have used it, is the combination of simple herbs with peppermint oil by Dr. Caldwell's Sarsaparilla. It is sold everywhere under the name of Dr. Caldwell's Sarsaparilla. For a free trial bottle write to Dr. W. E. Caldwell, 462 Washington St., Monticello, Ill.

Dandruff Heads Become Hairless
If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will mar your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid soap, apply it at night when resting; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most of the dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it.

You will find, too, that itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Adv.
